## WASHINGTON LETTER.

Washington D. C. July 23, 1894. -Since the beginning of time great men have upon momentous occasions resorted to extraordinary methods of focusing pulbic aftention upon certain things. One of those occasions was when President Cleveland's letter to Chairman Wilson, pointing out the betrayal of the democratic party by certain 'of the Senate amendments and urging him and his colleagues on the part of the House to stand by the House bill, which is strictly in accordance with the principles profess ed by a Tong Line of democratic 'national platforms. There are dem ocrats who regret that the necessity arose for writing and for making public such a letter, but it is not difficult for even the most indifferent observer to see that the rank and file of the democratic party is behind President Cleveland and the House, and consequently opposed to the hand full of democratic Senators who forced the acceptance of undemocratic amendments apon

their colledgues. As matters now stand it is in the power of that hand full of democratic Senators to prevent any tariff legislation and leave the obnoxious ed the Senate amendments, but the hope still remains that they will after careful thought discover that Senator Hill spoke words of wisdom when he told them that they were wrong and President Cleveland right and that sooner or later they would be compelled to surrender, because the President in reiterating the demand to day, and in Va., commands itself to all worboth House and Senate are earnest- heers, and every comrede. of President Cleveland's letter.

## Democratic Mass Meeting.

Pursuant to the call of the Coun ty Chairman, L. H. Stephenson, a goodly number of the democrats of house on court day, the 24th inst., leading up to the rise, conduct, and ty. Said lands will be sold as a New Lexington. Ohio. 50 cent is. For the small sum Highland assembled in the Courtnouse on court day, on leading up to the rise, conduct, and and proceed to select delegates to fall of the Confederacy, is all that whole or in parcels as may bring bottles for sale by H E Colaw Crab- of \$1.75, paid in ad- A A.BANCROFT, M.D. the Buckhannon convention.

But that appearing in so many forms makes a longlist of names. It certainly looks like a big jump from corns and folous to consumption. But each is inflammation, and inflammation can no more thrive under the application of this remedy than potato bugs can under paris green. It kills it. If no inflammation then there would be no than potato bugs can then there would be no consumption: arrest it and you arrest the consumption. Mr. S. L. Amphlett, Clearmont, South Dakota, writes: "I am a well man and cannot say enough in praise of Golden Relief. Took it as directed. In two weeks cough had eeased and throat trouble of years standing disappeared. The Golden Relief is all you claim for it. I could tell of other wonderful cures." This is the brief tale of a man who had had the "hectic flush" and was about to take the "last chance." Instead of "going south" he was induced to use Golden Relief. He did not "go south." To-day he is a weil man. Try it. If not satisfied with results, money refunded. No narcotics, no mineral poisons in it. Safe and certain. Never disappoints. One tablespoonful sures LaGrippe. Take a bottle home to-day.

# MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

cause instant death.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a decangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organ rather than the nerve centers which are the cause of the trouble.

DR. Frankcin Milles, the celebrated specialist has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the above statement, and that the ordinary methods of

matter how caused. The wonderful success of Dr. Miles' Restorative Nervine is due to the fact that it is based on the foregoing principle.
